

Leadership through innovation

2/2 High Pressure Valves

The New, High Performance, Long Lasting High Pressure Valve for Semi & Fully Automatic "Pet" Blow Moulding Machines

NP114H

NP115H

Salient Features

- Longer life with use of polymer seals
- Fast Response Time
- Compact & Light Weight
- Manifold Mounted
- High Performance
- Can be used as either N.O or N.C

Specifications

Model No.	NP114H	NP115H
Port Size	1/2" BSP	3/4" BSP
Orifice	13mm	16mm
Design	Poppet Type, External Pilot Operated	
Operating Pressure	5 to 40 bar	
Ext. Pilot Pressure	3 to 8 bar	
Ext. Pilot Connection	4mm O.D	
Seals	Polymer	
Body M.O.C	Aluminium	
Coil Voltage	230VAC / 24 VDC
